

manugraphy®

Accurate & reliable hand analysis

manugraphy® enables the analysis of the hand function at highest quality level.

Scan the **pressure distribution** to get a reliable and accurate **analysis of the hand.**

Hand pressure platform

manugraphy® key features:

- collect pressure and force data during static & dynamic grasping and holding
- work with reliable, individually calibrated, capacitive sensors to evaluate anatomical segments of the hand individually
- follow pre-defined protocols and create a report within seconds, automatically
- quickly integrate the sensor in your lab or medical environment and sync with other systems
